Mail Stop - Non-Fee Amendment

S I R:

In the matter of the above identified application, would the Office kindly enter the instant amendment in response to the Office Action of August 7, 2006.

3.(currently amended) The ~~facia~~ fascia system of Claim 1 wherein said first member and second member are formed of a metallic sheet material.

4.(currently amended) The ~~facia~~ fascia system of Claim 3 wherein said sheet material is aluminum.

5.(currently amended) The ~~facia~~ fascia system of Claim 1 wherein said second cooperative locking means comprises a plurality of outwardly extending projections and said first cooperative locking means comprises recess portions to receive said projections such that said second member is supported by said first member.

6.(currently amended) The ~~facia~~ fascia system of Claim 1 wherein second member has a plurality of spacing projections formed on said generally ~~planer~~ planar central portion.

7.(currently amended) The ~~facia~~ fascia system of Claim 1 wherein said ~~lower~~ transition section of said first member has a first portion extending upwardly and inwardly from said drip edge and a second portion extending downwardly and inwardly to said generally vertically extending portion.

8.(currently amended) The ~~facia~~ fascia system of Claim 1 further including a tensioning member, said tensioning member being designed to be secured to a building structure and to contact said inwardly extending flange arrangement of said second member and to thereby maintain a pressure thereon.

9.(currently amended) In a building having a roof structure including a plurality of sloping rafters extending beyond an adjacent wall structure and which sloping rafters terminate in a ~~facia~~, fascia and wherein said rafters are covered by a sheet material and a roofing material, the improvement comprising a ~~facia~~ fascia system, said ~~facia~~ fascia system comprising:

a first member and a second member;
